Web Conferencing/Zoom Notice

Parent(s)/Guardian(s)/Student:

- When in the classroom, interactions may be captured and livestreamed to students engaged in instruction through remote learning platforms, including but not limited to Zoom. If off-site, the livestream may capture the visual and audio interactions.
- Parent/Student shall make every effort to ensure that no one other than the student assigned to participate in the remote instruction can see or hear the remote instruction, including, where appropriate, the use of headphone and placing the computer or device being used by your child in such a manner that others are not observing the instruction.
- If parental or other third-party involvement in a remote class is necessary to enable a student to participate, the individual assisting the student shall not re-disclose any personally identifiable information about any student involved in the remote activity or who is participating in the in-person session and shall identify themselves to the instructor at the beginning of the session.
- If the parent's electronic equipment malfunctions in any way, the planned remote class will continue as scheduled. Student may view the recorded class at a later date.
- The District may record classes and students, both those attending in-person and virtually, are advised that they have no reasonable expectation of privacy during class sessions. Parents and students are prohibited from recording classes or copying recordings of classes without prior written permission.
- Parent shall have an obligation to ensure that students attend scheduled remote instruction and activities consistent with the attendance policy and students who fail to do so will be subject to truancy. Students will be obligated to attend remote instruction in the same way they would be required to attending if attending in person classes. If issues arise that prevent your child from participating in remote instruction, please follow attendance absence reporting procedures.
- Students attending the remote instruction shall be responsible to complete all assignments and assessments assigned by the teacher just as if they attended the class in person.
- Students attending remote instruction are required to comply with the student code of conduct and student handbook at all times that they are attending remote instruction or participating in remote instructional activities and assessments and may be disciplined for the failure to do so in the same way they could be in the school setting.
- Recordings of instruction, including but not limited to, class livestreams and pre-recorded instruction, are the property of DASD. (See **Policy 815** Technology/Internet) Use of these recordings is for my student only.
- Only DASD is authorized to share livestream recordings. I am obligated to abide by privacy protections and not share this livestream recording with anyone.
- Violation of privacy requirements may result in disciplinary action pursuant to the Student Code of Conduct.
- By having your child participate in remote instruction, you are accepting and agreeing to the conditions outlined in this letter.
